EDUCATION

B.Tech. — AI & Machine Learning

Rajalakshmi Engineering College
2028 (Expected) · CGPA 7.51/10

Higher Secondary (HSC)

Campion HSS, Trichy · 2024 · 64.83%

Secondary (SSC)

Campion HSS, Trichy · 2022 · 68.6%

SKILLS

- HTML, CSS, JavaScript, SQL
- GitHub, VS Code, Jupyter Notebook
- SQL, MongoDB
- Fundamentals of Machine Learning
- DBMS, Web Development, Responsive Design

SOFT SKILLS

- Communication & Teamwork
- Leadership
- Problem Solving
- Adaptability
- Time Management
- Learning Agility

PROFILE

Third-year Artificial Intelligence & Machine Learning undergraduate with hands-on experience in web development, frontend engineering, and software project implementation. Practical exposure to full-stack and AI-oriented projects, with a track record of building responsive applications and collaborating on real-world software solutions. Eager to contribute technical expertise, problem-solving ability, and adaptability across Software Development, Web Development, and AI/ML roles.

PROJECTS

Hospital Appointment Booking System

Technologies: HTML, CSS, JavaScript

- Developed a web-based system to streamline patient appointment scheduling and doctor consultation management.
- Implemented booking functionalities with interactive forms, responsive layouts, and user-friendly navigation.
- Designed responsive user interfaces and optimized frontend performance to enhance accessibility.

Music Streaming Application — Collaborative Project

Technologies: MERN Stack, React, Node.js, MongoDB

- Collaborated on a full-stack Music Streaming Application for seamless music browsing and streaming.
- Built the frontend UI, implementing responsive layouts and interactive interfaces for improved engagement.
- Integrated modern web development practices to create dynamic webpages and enhance usability across devices.

Portfolio Website — Pixel Plus Digital Marketing Agency

2025

Technologies: HTML, CSS, JavaScript · Web Development Internship, Altruisty Innovation Pvt Ltd

- Developed a responsive portfolio website for a digital marketing agency during a web development internship.
- Improved frontend structure and UI design with modern, user-friendly, visually appealing interfaces.
- Collaborated with the development team to optimize responsiveness and enhance user experience across devices.

Buddy AI — Ongoing Project

Technologies: MERN Stack, AI Integration

- Planning an AI-powered companion application to support individuals facing communication challenges, loneliness, stress, anxiety, and depression.
- Aiming to create a safe, user-friendly, interactive platform that promotes mental well-being.
- Designing responsive UI components and integrating frontend and backend modules for a seamless experience.

AWARDS & ACCOMPLISHMENTS

- Web Development Internship Certificate – Altruisty Innovation Pvt Ltd
- NPTEL Certification – Business Fundamentals for Entrepreneurs
- NCC Navy Junior Captain — led a team of 15 members, demonstrating leadership, discipline, and team coordination abilities
